International Business Seminar

Tuesday, April 24, 2012 - 9:00 a.m. to 1:30 p.m.

London Hilton on Park Lane
22 Park Lane
London W1K 1BE
Barbados’ international business and financial centre is unique, offering investors the combination of a secure and reputable jurisdiction, cost effective treaty-based tax planning opportunities and a high quality of life. Located in a similar time zone to the eastern US, it provides a secure environment for banking, insurance, trust and mutual funds management. Multinationals with significant business interest in the Caribbean and Latin America find Barbados attractive for establishment of their regional headquarters.

A low tax jurisdiction, the Barbados business environment and regulatory infrastructure attracts businesses of substance. It adheres to standards of transparency, disclosure and procedures for tax information exchange and has been credited by the OECD Global Forum as having substantially implemented the internationally agreed tax standard.

What distinguishes Barbados is its expanding network of double taxation treaties with emerging economies in the Americas, Europe, Asia and Africa. This treaty advantage makes Barbados an attractive base from which to launch an international venture or provide cross-border services to key emerging markets.

Recent legislative amendments also strategically position Barbados as a preferred choice for wealth management solutions, particularly for high net worth individuals and entrepreneurs. In fact, Barbados aims to become the number one entrepreneurial hub in the world by 2020.

Combined with the above advantages, the country’s good health care, educational services, sports facilities, excellent restaurants, private accommodation, exciting night life, appealing year-round climate and ease of access from international gateways make Barbados the ideal place for investors to live and work.
